

Members of the Danish Pelagic Producers Organisation are committed to minimizing the risk of their responsibly caught pelagic fish and associated refined products enter Russian and Belarussian territories in 2024.

DECLARATION 2024

Buyers of pelagic fish must take all reasonable and justified measures throughout the supply chain to ensure and prevent that fish and fish products sourced from Danish registered pelagic vessels that are members of the Danish Pelagic Producers Organisation do not enter Russian or Belarussian territories.

All sales, also those covered by already signed contracts may be ended, if evident signs arise of breach of this declaration that by reasonable expectation should and could have been prevented.
